Derrick Mulati

Computing Enthusiast | Data Scientist | Developer | Graphic Designer

I am an ambitious person who has developed a responsible and mature approach to presented task or situation. I have an outstanding interpersonal and technological skills allowing me work and communicate with various stakeholders. I would like to obtain a position of responsibility that utilizes my skills and experience. Very keen to work in an environment of growth and excellence and a job satisfaction and self-development that will help achieve organizational as well as personal goals

Profesional Experience

Web Developer | Pixel Design Agency

May 2022 - November 2022

- Creating the user interface and user experience of a website.
- Implementing responsive design to ensure the website works well
- Designing and maintaining databases, optimizing queries, and ensuring data integrity
- Optimizing web assets (images, scripts, styles) for performance.
- Ensuring the security and scalability of the back-end infrastructure.
- Using version control systems like Git to manage and track changes to code.
- Building, customizing, or integrating CMS platforms like WordPress, Drupal, or Joomla for content-driven websites.
- Staying updated with the latest web development technologies and best practices to remain competitive in the field.

Attachee | JKUAT - Karen Campus

November 2021 - January 2022

- PC troubleshooting and ensured other components, such as the printers, were working efficiently and keeping track of the equipment working well during the performance audit.
- Networking throughout the institution, where I was the leader of all the attachés and involved them in participating in networking cables across the buildings.
- Submitting reports of my daily attachment activities to my supervisor for approval.
- ICT helpdesk - assisting the students of the institution in setting up their student portals and e-learning platforms
- Involved in helping the institution's staff with any technical problems that they encountered.
- Involved in group projects revamping the institution's technology department website

Data Annotator | Remotasks

June 2020 - May 2021

- Performed various tasks such as data collection, 2D image annotation, and segmentation, transcription, 3D image annotations, and segmentation.
- Participation in boot camps involving me in training and completing higher valued tasks within the session.
- I was involved in categorizing data on websites and text groups
